

## Case Presentation of Bioprocessing Education in Australia

Andrew Growth, Prof. UT Sydney

### BIOGRAPHY

“Dr Andrew Groth is Faculty Business Development Manager for the Faculty of Science at University of Technology Sydney. Andrew holds a PhD in Chemistry and has previously held the roles of Global Director of Research and Development at Memcor Products in Siemens Water Technologies as well as Research Group Leader in Nanostructured Materials and Stream Leader of High Throughput Polymer Science at CSIRO.

He has expertise in polymer and synthetic chemistry, materials science, water and waste water treatment, membranes and manufacturing technology. Andrew has always been driven by a desire to see his and other’s research applied such that it benefits the economy, employment and the environment.

This is why he is so passionate about bringing much needed skills to the biotech work force of Australia and Asia in the UTS GMP Biologics Innovation Facility”
